

About Us

A new Village is forming in Gresham, Troutdale, Fairview and Wood Village.

UpRiver Village is a part of a national Village Movement that embraces the strategy of bringing volunteer services to older populations rather than moving those individuals to services.

Our mission is to create a lively and dynamic community that supports those who want to spend as many of their later years as possible in their own homes and in their own neighborhoods.

We value neighbor-to-neighbor interdependence among generations.

UpRiver Village is making plans to join Villages NW, a 501(c)3 non-profit organization. Our service area includes Gresham, Troutdale, Fairview and Wood Village.

VOLUNTEER

During the development phase, there are multiple opportunities to help with infrastructure creation, communication and outreach. We are looking for key volunteers to join our leadership team, as well as volunteers to help with smaller pieces of our marketing plan.

Please reach out at:
contact@uprivervillage.org

After we launch, volunteers will provide services such as transportation to appointments and shopping, assistance with housekeeping and yard work, and help with technology.

SOCIALIZE

UpRiver Village is made up of a vibrant community of older adults who are intent on enjoying life.

Social, educational, cultural and recreational activities present opportunities to meet like-minded folks for coffees, book groups, potlucks, group walks, bike riding, crafting sessions, happy hours, games, and more.

RECEIVE SERVICES

When UpRiver Village launches, volunteers will provide a variety of services to members including transportation to appointments, occasional help with housekeeping, technology assistance, friendly visits and telephone check-in, organizing and decluttering and non-medical assistance with home recovery.
